

Thank you for purchasing a Shakespeare antenna product. Customer comments are welcome. Before installing, please study the diagram and check parts supplied against those listed.

IMPORTANT! Please read all instructions before installing.

The Style 5120 is a Centennial® Series, AM/FM antenna of 8' overall length with a chrome plated brass ferrule and 15' cable with Motorola type plug attached.

Tools required: None

Installation Instructions

Choose a mounting location that is as high as possible, as free as possible from obstructions, and as far as possible from other antennas.

1. Mount the antenna using a Shakespeare Style 4187 Ratchet Mount (sold separately). Follow the directions included with the mount you choose.
2. **Do not cut the cable.** Route the cable to your AM/FM receiver and plug the Motorola type plug into the antenna jack. Coil any excess cable in an out-of-the-way place. The cable can be lengthened with a Style 4352 AM/FM 10' extension cable kit (sold separately).

Cleaning instructions

To clean the antenna, use mild dishwashing liquid (one that is not harsh to the hands and *without* ammonia) in lukewarm water.

Tech Tip: This antenna will read "open circuit" when tested with an ohm meter or continuity tester.

Supplied Parts

1 Antenna assembly

WARNING: Do not let paint solvents, cleaning solvents, or adhesive caulking come in contact with the antenna. Chemicals in these materials might destroy the finish.
