

Fastest Charge Times

ProMariner™

ProTournamentelite Series

New!

Tournament Winning Technology...

The fastest battery charger with the most features in its class. Specifically designed to deliver maximum charging performance and extend battery life. Get on the water first and stay there longer with tournament winning technology providing: 100% charge upon completion of multi-stage charging process. 100% charging output with AC power as low as 90 VAC. 50% lighter and 2 to 3 times faster than traditional chargers. Give your batteries what they demand with ProTournamentelite's three (3) digitally selectable "performance matched" 5-stage charge profiles. Using 100% of the available charging amps, ProTournamentelite's Distributed-On-Demand™ Charging technology will always distribute its full charging output to the combination of batteries connected to it as required by the discharge state of each battery.

Optional Status Remote

Tri-color charge mode status

Professional Grade Series On-Board Marine Battery Charger

Professional Performance for Fastest Charge Times
Designed to deliver maximum charging performance and extend battery life

Tournament Winning Technology
100% charge upon completion of multi-stage charging process. 100% charging output with AC power as low as 90 VAC. 50% lighter and 2 to 3 times faster than traditional chargers.

Forced Induction Cooling (360elite models only)
Concealed waterproof fan provides forced air cooling for cooler operation & fastest charge times.

Digital LED Display with Dual Mode Battery Status Monitor
Intuitive LED display with charge mode indicators and real time charge level status with an on-the-water push-to-test feature for percent of battery power remaining.

3 Selectable Performance Matched Charge Profiles
Profiles include: Standard Flooded/AGM batteries, HP AGM1 for pure lead AGM batteries like OPTIMA Blue Top Marine Batteries, HP AGM 2 for pure lead AGM Batteries like Odyssey Marine Batteries.

Waterproof Connector Port for Optional Status Remote
Optional tri-color LED charge mode status remote can be placed up to 12' away from the charger.

Digital 5-Stage Charging with Temperature Compensation
Analyzes connections and the ability for a battery to accept a charge, advance high fill rate charging, conditioning, auto maintain (energy saving mode) and automatic once a month storage recondition mode automatically monitors ambient temperatures and adjusts its charging output.

System OK & Individual Battery Trouble Status Indicators
Advanced technology eliminates time consuming trouble shooting by clearly indicating system and battery connections are OK or if a fault is present on a specific battery bank.

Built-in Safety & Pre-Wired for Easy Installation
Shock resistant, space saving extruded aluminum design, dual in-line DC safety fuses for trolling motor and house batteries, over-voltage, overload, over-temperature, reverse polarity and ignition protection.

Distributed-On-Demand™ Technology

For 12, 24, 36 or 48 Volt Systems (model specific, see chart below)

ProTournament240elite Dual, ProTournament240elite Triple, ProTournament360elite Dual, ProTournament360elite Triple, ProTournament360elite Quad

Digital LED Display with Dual Mode Battery Status Monitor
Charge level indicator with on-the-water push-to-test button
System Check OK and battery trouble status indicators
3 Selectable Performance matched charge profiles

3 Selectable Performance Matched Charge Profiles
Standard Flooded/AGM batteries, HP AGM1 for pure lead AGM batteries like OPTIMA Blue Top Marine Batteries, HP AGM 2 for pure lead AGM Batteries like Odyssey Marine Batteries.

Waterproof Connector Port for Optional Charge Status Remote
Tri-color LEDs indicates charge mode status
Remote not included

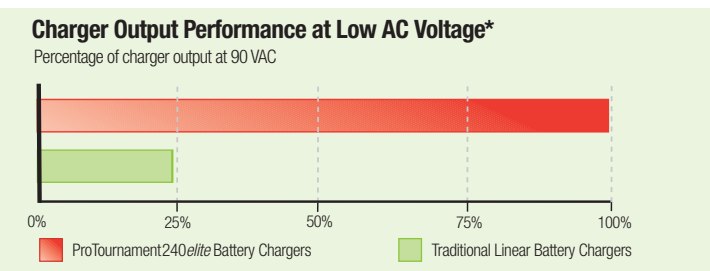

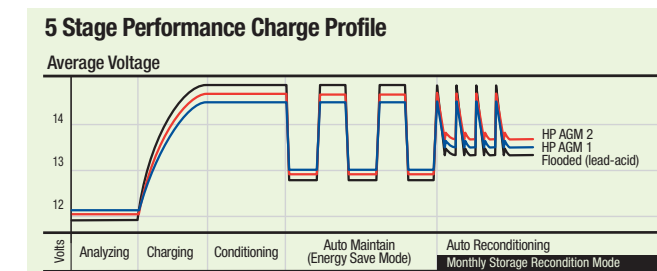

Digital 5-Stage Charging
Analyzing, advance high fill rate charging, conditioning and auto maintain (energy saving mode)
Automatic once a month storage recondition mode

How Distributed-On-Demand™ Charging Technology Works

ProTournamentelite's Distributed-On-Demand™ Charging Technology ensures 100% of the available charging amps are fully utilized to meet the demand of each battery on-board. For example, if your engine start battery only needs 2 amps from your ProTournament240elite, the unused 6 amps will automatically be Distributed-On-Demand™ to your house or trolling motor batteries, providing 11 amps to each of your deep cycle batteries for faster charging.

For Lead Acid (Flooded)/AGM batteries only. For Group 24 to 31 12V Flooded (Lead-Acid), STD AGM & high performance AGM batteries.

| model | part no. | vol | amps | banks | charge rate | cable length | size | weight | AC in |
|--------------------------------|----------|-------------|------|-------|------------------|--------------|----------------------|----------|--------|
| ProTournament 240elite Dual | 52024 | 12/24 | 24 | 2 | 100 amps / 10hrs | 6'6" | 13" x 7.125" x 2.75" | 7 lbs | 90-135 |
| ProTournament 240elite Triple | 52026 | 12/24/36 | 24 | 3 | 100 amps / 10hrs | 6'6" | 13" x 7.125" x 2.75" | 8 lbs | 90-135 |
| ProTournament 360elite Dual | 52032 | 12/24 | 36 | 2 | 100 amps / 10hrs | 6'6" | 13.5" x 9.375" x 4" | 12.5 lbs | 90-135 |
| ProTournament 360elite Triple | 52036 | 12/24/36 | 36 | 3 | 100 amps / 10hrs | 6'6" | 13.5" x 9.375" x 4" | 13.5 lbs | 90-135 |
| ProTournament 360elite Quad | 52038 | 12/24/36/48 | 36 | 4 | 100 amps / 10hrs | 6'6" | 13.5" x 9.375" x 4" | 14.5 lbs | 90-135 |
| Tri-Color Charge Status Remote | 52060 | n/a | n/a | n/a | n/a | 12' | 1.75" x 1.5" x 1.14" | 0.6 lbs | n/a |

For Group 4D or 8D batteries, please see ProMariner's ProNauticP Series.
