

- Guardian Anchors are manufactured from the same hardened Aluminum-Magnesium Alloy as FORTRESS, making them stronger and lighter than competitive steel anchors.
- Guardian Anchors are engineered for fast setting and strong holding power.
- Guardian Anchors use slightly smaller extrusion profiles than FORTRESS. Also, several FORTRESS precision machining steps and extra features, such as anodizing and adjustable fluke angles, are eliminated.

The result is a very affordable alternative to heavy steel anchors.

- Sizes for boats up to 72 feet (22 meters).
- One Year Parts Replacement Warranty.
- Disassembles for easy storage.
- 90 day money back guarantee.
- Rust proof and non-magnetic.
- No welds to fail.

MADE IN USA
