

NEW

MINN KOTA

i-PILOT

NOTHING COMES REMOTELY CLOSE.

The same i-Pilot that lets you lock onto a fishing spot, record and retrace paths, and command speed and steering just got better. Redesigned with a larger LCD screen, more options, and better controls, we've dialed in the technology that lets you dial in your boat position.

REDESIGNED REMOTE

We gave it a 33% larger LCD screen that's fully viewable in sunlight, expanded menu navigation, and more intuitive controls - making the new i-Pilot remote better than ever.

BLUETOOTH COMMUNICATION

The new i-Pilot system connects via Bluetooth, allowing for easy software updates to add new features to your system via your smartphone.

i-PILOT PHONE APP

Bluetooth communication allows new i-Pilot to pair with your smartphone, allowing for easy software updates and quick command of speed, steering, Spot-Lock, high speed bypass, and Advanced AutoPilot.

COMPATIBILITY

i-Pilot Link is available pre-installed on:

- Ultrex™
- Ulterra™ / Riptide® Ulterra™
- Terrova® / Riptide® Terrova®
- PowerDrive™ / Riptide® PowerDrive™

HEADING SENSOR

Select i-Pilot systems feature a new Heading Sensor, which recognizes changes in the boat's heading due to wind and current, and communicates with the i-Pilot system to minimize boat swing for a more accurate, stronger hold.

REINVENTED SPOT-LOCK

Enhanced with new hardware and software algorithms, Spot-Lock works holds you tighter to your fishing spot than ever before, making it the most accurate electronic GPS anchor ever.

SPOT-LOCK JOG

Move your Spot-Lock five feet forward, backward, left or right - just by pushing a button.

ADDITIONAL FEATURES

- iTrack Record/Playback**
Store and retrace up to six 2-mile trolling paths to return to later.
- Advanced AutoPilot**
Stay on a heading automatically.
- Cruise Control**
Precisely dial in and adjust speed in 0.1 mile-per-hour increments.
- CoPilot**
Control and monitor speed, steering, prop on/off and high speed bypass.
