Installation

1. Disconnect all AC and DC power.
2. Use 12 or 14 AWG wire. Remove insulation as appropriate for wire terminals to be used.
3. Connect wires per wiring diagram as follows:
   - Attach BLACK (hot) wire to BRASS screw.
   - Attach WHITE (neutral) wire to SILVER screw.
   - Attach GREEN or BARE wire to GREEN screw. The GREEN or BARE wire can be attached to the metal frame with ground screw.
