

Platinum

Performance Aftermarket Marine Gauges

Faria Beede Instruments, Inc., presents the Platinum Series line of performance marine gauges!

This elegant, yet rugged set of instruments features custom, spun aluminum dials accented by a gloss black outer background and stylish graphics. The fire-orange tip pointers stand out in daytime or at night, enabling quick readings.

Blue LED edge-lighting

All of the gauges in the Platinum Series are equipped with domed, fog-resistant glass lenses to ensure that they stand up against the harsh marine environment.

Vibrant, blue LED edgelit illumination, makes these gauges easy to read so that the operator can comfortably see everything that is happening on the dash... in style!

Each instrument has been manufactured in an ISO:9001 2015 registered facility, built to stringent standards and has passed a comprehensive quality control procedure prior to shipment. Each instrument is backed by a limited lifetime warranty.

KTF0185
Outboard Set

Gauge	Catalog P/N	Factory P/N	Size
Tachometer	22009	TC8155	4"
70 MPH Speedometer	22011	SE9863	4"
Fuel Level	22021	GP5088	2"
Voltmeter	22022	VP7179	2"

The **Outboard Set** comes complete with Speedometer and Pitot, Tachometer, Fuel gauge and Voltmeter.

KTF0186
Inboard Set

Gauge	Catalog P/N	Factory P/N	Size
Tachometer	22009	TC8155	4"
