

Introducing

**ROKK™**  
WIRELESS.

Sub.

12/24V Waterproof Wireless  
Integrated Charging.

SC-CW-07E

Sub is designed to seamlessly integrate into your interior or exterior design.

Engineered to bond to underneath & wirelessly charge through all non-metallic materials; GRP, fabric, leather, wood, carbon fibre and all leading marine traction products, e.g Seadeck, MarineMat.

The result is wireless phone charging capabilities with your finished aesthetic.

Your chosen charging area will be completely flush with its surrounding environment and allows for custom branding.

## WIRELESS CHARGING. YOUR WAY.

### UNLIMITED CHARGE POSSIBILITIES

With integrated wireless charging onboard, each requirement is different. Whether a new build or a refit, our engineering team are on hand to advise you on your wireless charging vision. Whether you're wanting to integrate wireless charging at the helm, cockpit table, seating areas, bedrooms or even areas that may be stood on, it's all possible.

### KEY FEATURES:

- 12/24V input compatible.
- IPX6 Waterproof.
- Designed to fit in with any boat design ascetics
- Instant charging. No connection needed.
- Qi-certified wireless charging.
- Compatible with a wide range of device sizes from Apple, Samsung and many more.
- Charges through non-metallic waterproof cases up to 3mm thick (0.11").
