HUSTLER ALUMINUM PROPELLERS NEW ENGINEERING CRANKS UP BOAT PERFORMANCE

Stainless Steel Performance at Aluminum Prices
New unique blade geometry and manufacturing processes results in the highest performance aluminum propellers on the block. Hustler® propellers out performed most competitive stainless steel props in recent tests. Not only does top speed, handling and hole shot improve, but also mid-range performance, which will save you a ton in gas usage.
Squeeze Cast for Added Strength
Stainless steel performance is built into the Hustler Aluminum prop line. This is achieved through unique blade geometry and an exclusive Turning Point manufacturing process, Squeeze Casting. It generates the highest mechanical properties attainable in a cast aluminum prop resulting from a tighter grain structure. Stiffer blades means less flex and a faster prop. Competitors still use old Die-Cast processes that produce blades that flex, resulting in overall poor performance.

SQUEEZE CAST
• Turning Point Exclusive Process
• Applied to all Aluminum Designs
• Tight Grain
• Strong and Stiff
• Reduces Flex for Maximum Thrust

DIE-CAST
• Competitors' Process
• Pockets Voids, Air Bubbles
• Weak and Flexible
• Inefficient Transfer of Power
• Poor Repairability

SHE'LL DO THINGS YOU NEVER THOUGHT POSSIBLE

Express® Mach3™: Looking for Top Speed? Get one, and hold on!
Express® Mach4™: Max Cornering? Like you're on rails! Hole Shot? Like a rocket!
Express® Mach3™ OS™: Big Blades for Big Horsepower. Get Peak Performance on Pontoon, Center Console, or Walleye Boats.

*Note: To find the correct installation kit and propeller housing, locate the HP, gearcase size, and prop shaft spline count of your outboard or sterndrive.

TURNING POINT PROPELLERS PROP WIZARD
NEED A PROP? SEEK THE WIZARD
Quickly calculates the best props for a boat.
Visit <http://tpprops.com/propwizard> or Call 904-900-7739

Turning Point manufactures propellers to fit 6-300-hp Evinrude®, Force®, Honda®, Johnson®, Mariner®, Mercruiser®, Mercury®, Nissan®, OMC®, Parsun®, Suzuki®, Tohatsu®, Volvo Penta®, and Yamaha® Outboards and Sterndrives. Choose one of our Lifetime Warranty MasterGuard Installation Kits to fit your engine, then choose the propeller that matches your boating requirements. There are 3 & 4 blade, left & right rotation prop models with a variety of diameter & pitch options available for almost all boat types. Our Props Run Faster, Pull Harder, and Handle Better.

Left Rotation Right Rotation (standard)

AN INSTALLATION KIT IS REQUIRED
See Installation Kit Application Guide for best kit selection.
MasterGuard 500 & 700 Series Kits include a Lifetime Warranty

90-300+hp ENGINES WITH A 4.75"+ GEARCASES

500 Series Installation Kits
Use on engines under 200hp with aluminum or stainless steel props or most engines 200hp and above with aluminum props only.

700 Series Installation Kits
For heavy duty extreme load applications
Use on engines 200hp and above with stainless steel props.

800 Series Installation Kits
For noisy lower units - quieter ride
Use on engines 40hp and above with stainless steel props.

621 Series Installation Kits
Engineered For Big Prop Shafts
Use on 1.25" Mercury Prop Shafts with stainless steel or aluminum props.

Installation Kits & Corresponding Prop Housings are Compatible with, and Upgrade Competitors' Hub & Prop Systems. Interchangeable with Mercury® Flo-Torq II®, Michigan Wheel® XHS®, Solas® Rubex™ hub kit systems. NOTE: Not applicable with Turning Point's 10, 20 and 200 Hub Kit series.

*Note: Lifetime Warranty on 500 & 700 Series Hubs Apply To Non-Commercial Use Only, for terms & conditions visit: <http://tpprops.com/warranty>
