

LATEST USACE AUTHORIZED PRODUCTS

MUSTANG SURVIVAL WE SAVE LIVES FOR A LIVING

Mustang Survival continues to offer the latest flotation and climate protection solutions authorized for use by the United States Army Corp of Engineers (USACE) including products that meet the latest USACE regulations as of November 30, 2014. Our solutions include:

- Inherently buoyant PFDs meet or exceed USACE required 62 sq. in. (31 sq. in. on front & back) of reflective materials. Inflatable PFDs meet or exceed USACE required 31 sq. in. of reflective material on the front of the vest.
- Inflatable PFDs with HIT™ (Hydrostatic Inflator Technology) eliminate inadvertent inflation due to high humidity, rain or spray (exclusively available only with Mustang Survival PFDs), & HIT inflators are maintenance free for 5 years unless activated.
- MA7637 Waist Belt Extender is now available and is USCG approved for those with a chest size greater than 52".

For more information about Mustang Survival and the latest innovative marine survival equipment for professionals faced with the most demanding environments, visit www.mustangsurvival.com/professional

GSA items in our catalog are marked with this symbol

Hydrostatic Inflator Technology (HIT™) uses a pressure valve that will inflate the PFD if immersed in 4" or more of water pressure. No more inadvertent inflation due to high humidity, rain, or splash.

INFLATABLE PFDs WITH HIT™

INFLATABLE PFD WITH HIT™ AND SOLAS REFLECTIVE TAPE (MD3183 T2)
