Stainless Steel Trim Tab Kit Model Number

XK	A	SL	12	X	12	A

XK = 23' (7m) Actuator Cable
K = 6'(1.8m) Actuator Cable

SL = One-Touch LED Control
SAL = Auto Level Control
SML = Manual Level Control
F = Flat Rocker Switch

2nd Number = Tab Width Across Transom (inches)

1st Number = Tab Chord Length (inches)

A = Aluminum Alloy Tabs

A = Standard Actuator 12vdc, 2.25" (57mm) stroke, 8 second stroke time
B = Standard Actuator 24vdc, 2.25" (57mm) stroke, 8 second stroke time
C & D = See Note Below

Note:
Actuators are also available with a 4 second stroke time. 4 second stroke time model numbers begin with the letter "C" for 12vdc and "D" for 24vdc.
Please note that Lectrotab recommends using the 8 second stroke time for a smoother, more controlled boat response to tab adjustments.
