

6 CHANNEL DIGITALLY CONTROLLED LIGHTING SWITCH

SCM-PWR6 MODULE

► **DESCRIPTION**

The SCM-PWR6 is a 6 channel digital switch module which offers a convenient way to control any vessel lighting or fixture with Shadow-Caster™’s Shadow-NET™ interface. Simply connect the module to the Shadow-NET™ system and switch support will automatically populate in the Shadow-NET™ interface. Each Module provides 6 output channels rated at 10 amps each with built-in digital fault protection. The PWR6 module also includes a switch input for overriding the interface.

► **FEATURES**

- 6 independent digital switches with self healing digital fuses
- On/off control for other brands of lights through Shadow-Caster™’s MFD interface and phone app
- Compatible controllers: SCM-LC-PLUS or SCM-MFD-LC-KIT
- Digital over current fault protection
- Manual switch override
- Green and red LEDs provide the status of each channel
- Digital control through with Shadow-NET™ interface
- Blue LED back light indicates power state

SCM-PWR6
