11.3 LPM

The COMMODORE 3.0 GPM water pump is specifically manufactured to be as versatile as possible. This one pump can be used for multiple applications, including Fresh Water Supply to Sinks and Showers, Fresh Water Washdown, Raw Water Washdown and other water transfer applications. This self-priming pump is also run dry safe and salt water safe. With 3 gallons of flow, this pump can supply up to 3 fixtures at the same time. COMMODORE'S specially designed low-noise motor, paired with its completely rubber mounting base, make this pump run extremely quiet compared to competing brands. It's industry standard mounting base and fittings allow you to swap out your existing pump with ease.

Quick-Connect Wiring Connector
